PATENT NO. : 6,941,376 *B2*
APPLICATION NO.: 09/893,391
ISSUE DATE : September 6, 2005
INVENTOR(S) : Margaret C. Mitchell, et al.

It is certified that an error appears or errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

17. A method of integrating and delivering data available over a network, said method including the steps of:
acquiring public data from at least one publicly available data store coupled to said network, wherein said public data is determined by private data;
acquiring said private data from at least one private data store coupled to said network;
integrating said public data and said private data to form integrated data; and
delivering said integrated data to a user system.
18. The method of claim 17, wherein:
said step of acquiring said public data includes the step of interactively updating said public data in accordance with changes to said at least one publicly available data store; or
said step of acquiring said private data includes the step of interactively updating said private data in accordance with changes to said at least one private data store.
19. The method of claim 17, wherein said integrating step includes the step of customizing said public data and said private data in accordance with a personal profile utility.
20. The method of claim 19, wherein said personal profile utility comprises a personal profile data store and a personal preferences data store.
21. The method of claim 19 wherein said customizing step includes the step of translating said public data and said private data in accordance with a data request services profile.
22. The method of claim 17, wherein said delivering step includes the step of initiating delivery of said integrated data automatically in accordance with a personal profile utility.
23. The method of claim 17, wherein said delivering step includes delivering said integrated data to said user system using a browser configured to communicate over the network.
24. The method of claim 17, wherein said delivering step includes delivering said integrated data to said user system using a network interface device configured to communicate over the network.
25. The method of claim 17, wherein said delivering step includes delivering said integrated data to said user system, said user system comprising a personal computer.
26. The method of claim 17, wherein said delivering step includes delivering said integrated data to said user system, said user system comprising a wireless device.
27. The method of claim 26, wherein said wireless device is a personal digital assistant.
28. The method of claim 26, wherein said wireless device is a wireless telephone.
